ES, EVERYBODY IS TALKING about the new Hardware Store at Gettysburg--the car loads of goods and the astonishingly low prices prevailing in all departments of the store. Really, it makes one

feel good when they see that their endeavors to please have met with a hearty response in orders. We certainly did not expect such a rush of customers in so short, a time. We did expect to "get there" slowly in "the course of events," but calculations have all been out-done and our clerks are most fagged out from over-work. We attribute this to judicious advertising. The people these days are ever watchful for the live advertiser and we appreciate the fact and give them something worth while to read,
